

PRODUCT DESCRIPTION

BF PRINTSU is a polyurethane sublistop and block-out film printable with all solvent, eco-solvent and latex based inks, suitable for heat transfer on cotton fabrics, polyester and acrylic garments.

BF PRINTSU is specially formulated to prevent the pigment migration from sublimation dyed textiles and keep any graphic looking bright on any kind of polyester garment! Thanks to its sticky carrier small letters and drawings can be easily cut by all current cutting plotters after the printing process.

We recommend using BF MYLAR as a transfer tape and as a protection during the heat transfer.
