

## PRODUCT DESCRIPTION

BF SANDY GLITTER series is composed by films in opaque polyurethane with fine glitter applied to the film surface. The glitter keep on the surface even after countless washes thanks to product quality. The semi-gloss thermo-adhesive makes the cutting line highly visible and its adhesive polyester backing provides a fast and precise weeding.

BF SANDY GLITTER series presents ultra-bright colors, very thin glitter and exceptional resistance to washing, so it's ideal for creating unique and luminous fashion garments.
