

PRODUCT DESCRIPTION

BF SUBLISTOP was created to be applied on garments printed with dye sublimation. It comes with a built-in barrier to prevent the migration of pigments, keeping the material's original color unaltered even after multiple wash cycles.

This product is easy to work with; the sticky polyester carrier allows for fast weeding and easy repositioning of details that might have accidentally been removed. It is also soft and comfortable to wear, even with bulky designs.

Because of its 120 micron thickness, BF SUBLISTOP is soft on any fabric.
