

## PRODUCT DESCRIPTION

GIMME5 FLUO is made of Polyurethane and has a brilliant neon finish. It can be heat applied on organic or synthetic fibers in just four seconds. This product is easy to work with; the sticky polyester carrier allows for fast weeding and easy repositioning of details that might have accidentally been removed. It is also soft and comfortable to wear, even with bulky designs. Its thickness (90 micron) and its elasticity make GIMME5 FLUO pleasant and soft on any garment, and ideal for multi-layer applications. GIMME5 FLUO can withstand wash cycles up to 60°C.
